

ENOC VERRON EP GREASE

PRODUCT DESCRIPTION

ENOC VERRON EP greases have been developed for automotive applications where the benefits of lithium base thickened greases have excellent extreme pressure, load carrying and anti-wear properties in both steel-on-steel and steel-on-bronze applications. It contains an effective oxidation and rust inhibitor and is an ideal multipurpose grease suitable for use in a wide range of applications.

APPLICATIONS

- ◆ Automotive vehicles
- ◆ General construction equipment
- ◆ Heavy earthmoving vehicles, mobile quarry equipment and mining
- ◆ Agriculture equipment
- ◆ Chassis grease lubrication points
- ◆ Effective temperature range

RECOMMENDATIONS

Many plain and rolling bearings are subjected to heavy shock loading conditions where conventional greases may not give adequate protection. **VERRON EP** minimises wear under these loading conditions and resists water wash-out, especially where equipment is constantly working under damp or very wet conditions. It is also effective over a wide temperature range and protects against rust and corrosion. Where equipment is lubricated by centralised grease systems, **VERRON EP** offers excellent pumpability characteristics and does not cause blockages in the distribution system.

Always follow equipment manufacturer's recommendation for required grease performance and re-lubrication periods.

BENEFITS

VERRON EP provides:

- ◆ Excellent extreme pressure properties
- ◆ Resistance to water wash-out
- ◆ Suitability in wide temperature range
- ◆ Good pumpability
- ◆ Good mechanical stability
- ◆ Multifunctional use

Technical Data*				
NLGI Grade	0	1	2	3
Dropping point, °C	186	196	204	204
Penetration, Worked @ 25°C	345	326	280	236
Oil Viscosity :				
mm ² /s @ 40°C	200	200	200	200
mm ² /s @ 100°C	17.50	17.50	17.50	17.5
Timken OK load, Kg	20	20	22	25
Operating temperature range °C	-30 to 120	-25 to 120	-25 to 120	-20 to 120
Product Code	224007	224010	224002	224003

*The information prepared provides the typical properties that are considered as representative. Some variation which will not affect performance is possible

HEALTH AND SAFETY, ENVIRONMENT

The information on this product is available in the ENOC Material Safety Data Sheet (MSDS) as a guide to the precautions and safe handling of this product and its disposal. For further information we recommend you review the MSDS. Handled correctly there are no special precautions suggested.
